***SUSTAINABLE MOBILITY
SOLUTIONS***

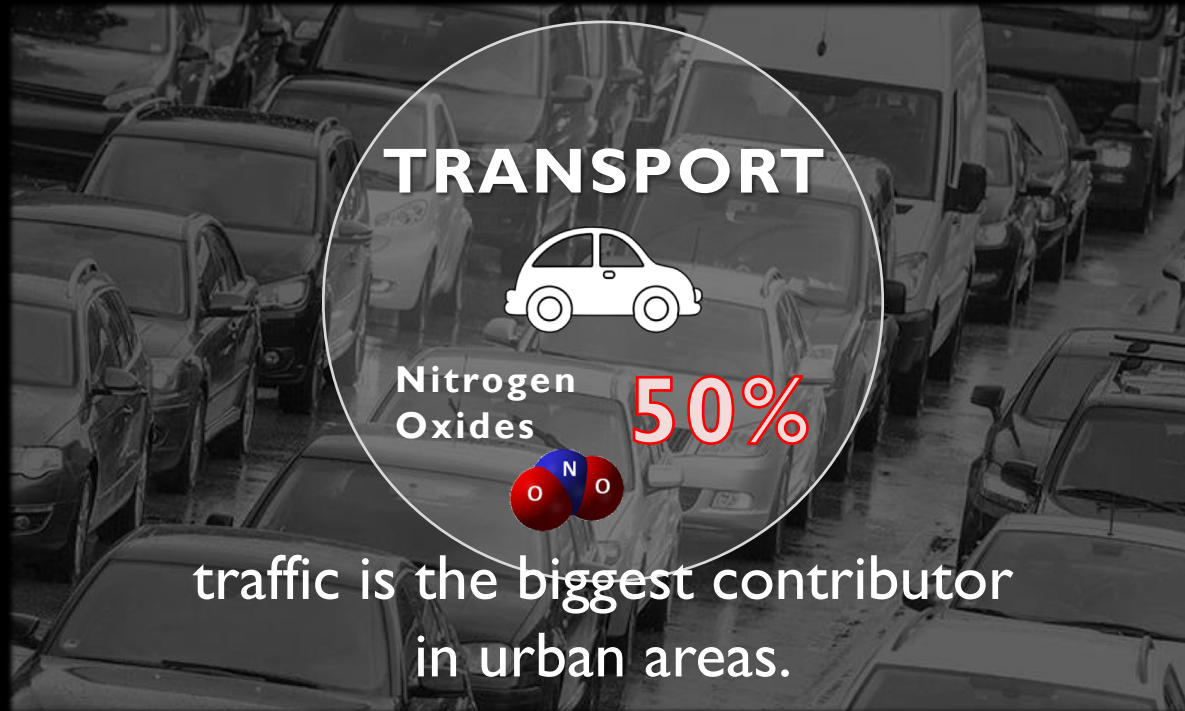

*11th World Bamboo Congress
Xalapa, Mexico
15 de Agosto 2018*

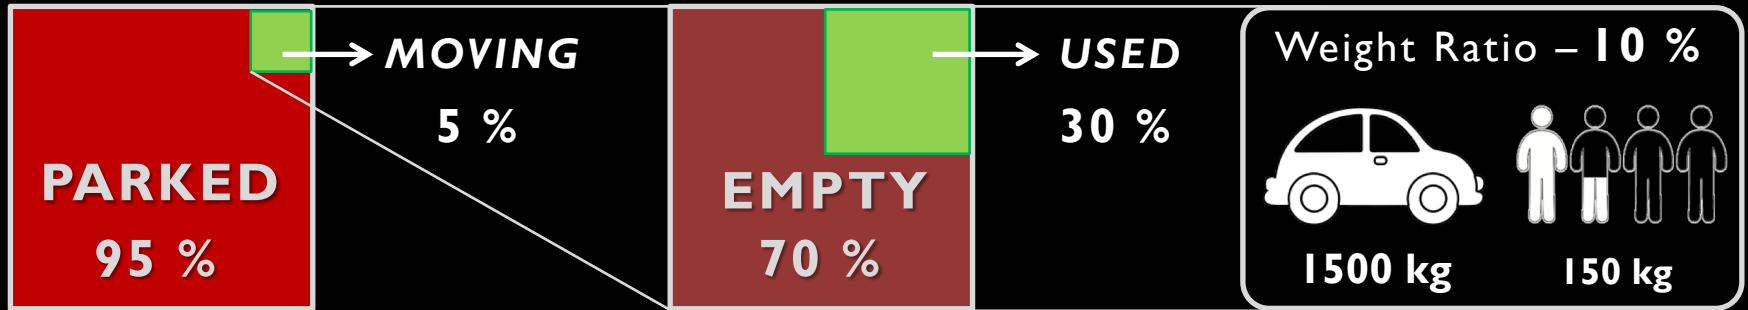

**Air pollution blamed for 500,000
early deaths in Europe in 2014**

Pollution linked to 9 million deaths
worldwide in 2015, study says

EU Environment 2017: <https://youtu.be/NjJ3H2pMyQE>

**Shared Mobility
Solutions**

Less vehicles parked on the streets result in more public space given back to the people.

**Adapt vehicles
size and capacity
to the real needs**

Smaller vehicles are pedestrian friendly. Easier to integrate in the urban spaces.

**Sustainable
Materials**

Sustainable engineered materials to achieve efficient and safe mobility solutions.

FIAT 500 (1957)

Wheelbase: 1840 mm
Length: 2970 mm
Width: 1320 mm
Height: 1320 mm
Weight: 499 kg

**FIAT 500 (2007)**

Wheelbase: 2300 mm
Length: 3546 mm
Width: 1627 mm
Height: 1488 mm
Weight: 980 kg (EU)

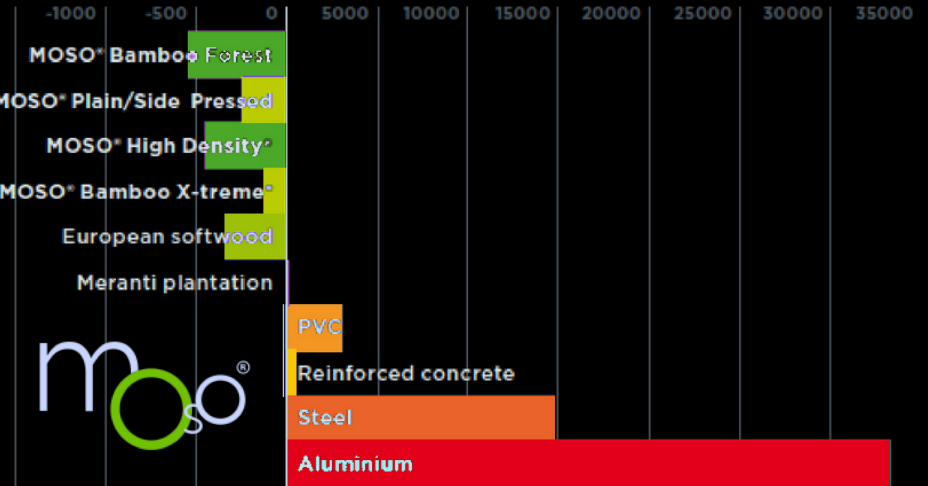

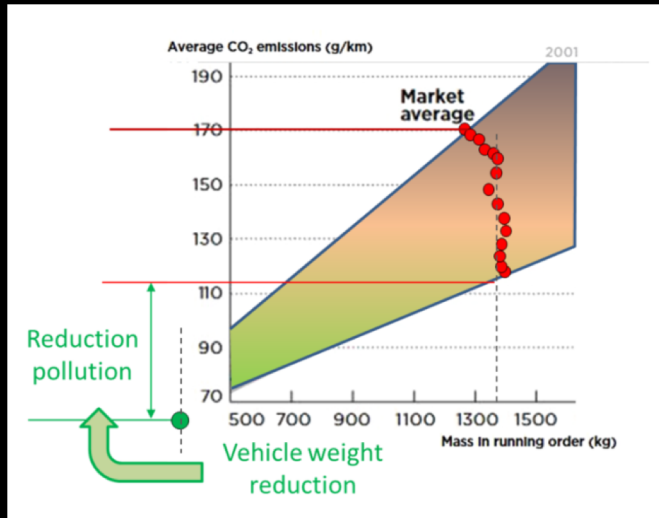

Let's get back to the roots

to find the right path again

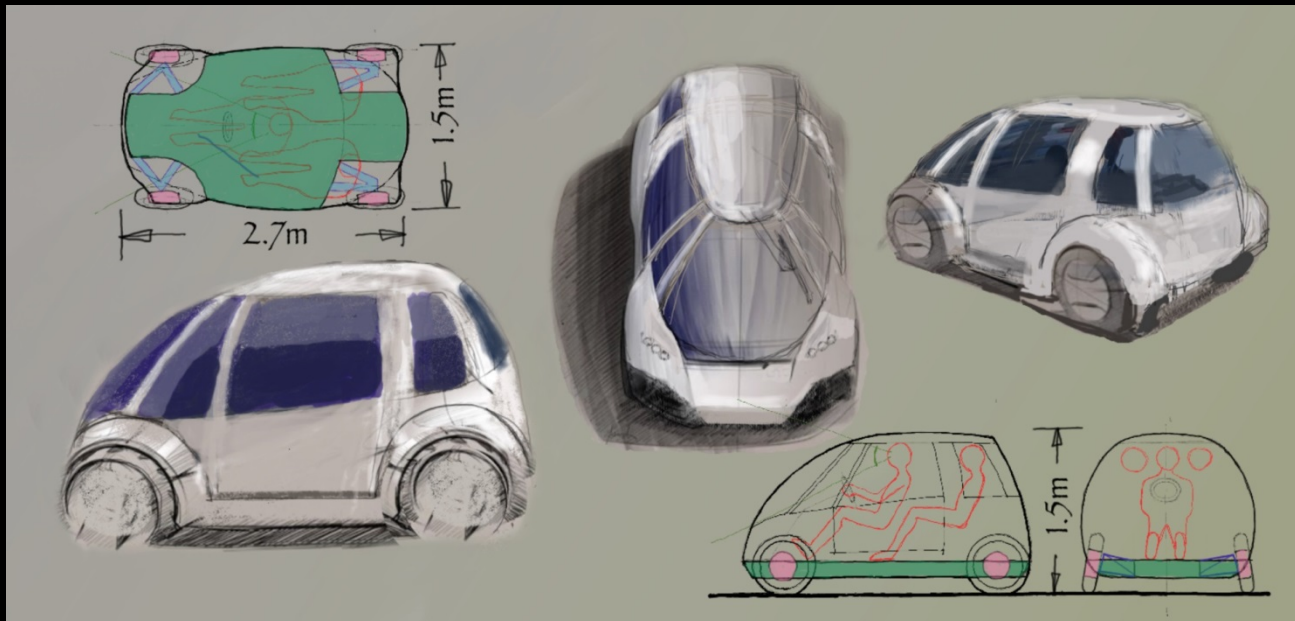

Size matters and the material choice

Lightweight sustainable materials mobility solutions
